

## **Dr. Lindsey Duncan Discovers the Healing Benefits of a 2000 Year Old Tradition**

Have you discovered the healing benefits of 100% Pure Noni juice? Dr. Lindsey Duncan ND, CN, protégé of renowned detoxification and natural medicine expert, Dr. Bernard Jensen DC, PhD has! Dr. Duncan has appeared on every major broadcasting network, including ABC News, CNN News, CBS News, NBC News and the BBC. This Master Herbalist and Award-Winning Formulator tells about his findings during his most incredible journey.

“Over the last 20 years, I’ve studied, researched, and used thousands of different herbs, plant nutrients, and nutritional supplements to achieve positive results with my patients. Out of all these natural healing elements, Noni is, by far, at the very top of my usage list. It is very potent, effective, causes no side effects and has given me tremendously positive results with my patients in a very short period of time. I’ve used it in every imaginable way...for external skin conditions, as a sinus and eye rinse (diluted with water, of course), as well as for a host of internal problems ranging from digestive issues, allergies, hormonal imbalances, circulatory problems, support of major organs such as the heart, brain, lungs, kidneys, pancreas, liver and intestines. Noni offers powerful nervous system support, helps with depression and exhaustion, obesity, Candida, parasites and much, much more. To sum it up...if I was stranded on a desert island, and could only choose ONE health-building nutritional element to have with me, it would, without a doubt, be 100% pure, aged, undiluted Noni.”

Noni is an evergreen tree reaching heights of 15 to 20 feet, which prolifically bears fruit year around. The tree grows and flourishes in tropical, volcanic regions such as Tahiti and Hawaii. The volcanic soil that the Noni tree grows in contains very high concentrations of minerals and nutrients, which are more powerful and nutritious than what most of us experience in our diet over an entire lifetime. Therein lies Noni's healing strength.

Genesis Today's Noni100 is the most pure Noni product in the world and uses an exclusive proprietary extraction process which includes aging raw, ripe Noni for several months and ending up with a powerful, pure, pungent, and highly concentrated liquid which is bursting with vitamins, minerals, enzymes and other powerful nutrients. This laboratory-monitored process increases the potency of the 140+ active ingredients (enzymes, phytonutrients, trace minerals and vitamins) and helps to preserve and naturally stabilize the juice. Our Noni100 is wild harvested from the very best farms located on the mineral and nutrient rich soils of the South Pacific Islands. Genesis Today's Noni100 has nothing added to it during this process – no preservatives, fruit juices, sweeteners, not even water (which are commonly added to Noni juice products to save money).

Why is Noni good for us in so many ways? The answer goes back thousands of years, when Noni was known as the “Queen” of all the canoe plants (sacred plants that the

Polynesians were required to take with them when they settled a new island) and can be summed up by the following points:

1. Noni contains over 140 powerful vitamins, minerals and other nutrients including Acubin, Alazarin, Asperuloside and Anthraquinone which are proven antibacterial agents and have shown to fortify and protect against many types of infectious bacteria.
2. Noni contains Damacanthal, which in 1993 Japanese researchers analyzed (among 500 different plant extracts) and concluded it has a very beneficial effect on precancerous cells.
3. Noni contains Scopoletin, which is known to bind with Serotonin, and helps to reduce high blood pressure by virtue of dilating blood vessels. It is also believed that Scopoletin demonstrates antifungal, antihistamine and anti-inflammatory effects, as well.
4. The Anthraquinones in Noni help stimulate activity of the entire digestive process, increasing secretion of enzymes and bile flow. Anthraquinones have also been shown to be effective for pain relief.
5. Noni is a powerful, digestive bitter, rich in natural enzymes which stimulate the digestive tract and promotes all around healthy digestion.
6. Noni juice has a very low PH of 3.4 to 3.8. It is acidic in nature, containing powerful antifungal, antiviral, antitumor and antihistamine properties. It is also very effective at helping the body combat Candida Albicans and other yeast overgrowths.

7. Noni directly affects the body's cells and literally has the ability to open up the cell wall, allowing more nutrients to be absorbed into our cells, and more waste material to be removed from weak or damaged cells.
8. Noni acts as a powerful catalyst with whatever nutrient you combine it with. It increases the power, availability, and effects of all other nutrients by improving absorption, function and overall results.
9. Noni has been used on the skin since ancient times for burns, abrasions, cuts, wounds and bruising by enhancing the healing process and helping to remove dead tissue quickly and safely so that new tissue may grow and flourish.
10. Noni helps to strengthen and support the immune system and helps support numerous health problems that are associated with decreased T-cell function, such as a weakened immune system, rheumatoid arthritis, hepatitis, fibromyalgia, and all chronic viral infections including Epstein-Barr, Lupus, and Chronic Fatigue Syndrome.

The following health complaints have historically been helped by 100% pure Noni:

High Blood Pressure	Arthritis	Diabetes
Circulatory Problems	Digestive Disorders	Immune Disorders
Allergies	Lung Conditions	Fatigue
Nervous System Disorders	All Skin Conditions	Headaches
Obesity	Kidney & Bladder Problems	Hormonal Imbalances
Inflammatory Conditions	Intestinal Parasites	Stomach Ulcers
Aging Problems	Infections	Emotional Disorders
Depression	Insomnia	Heart Problems
Pain (Emotional & Physical)	Bowel Conditions	Candida Albicans

When combined with a complete nutritional building program that includes proper diet and lifestyle choices, Noni100 can help to support and stimulate the miraculous human body's self healing process through cell regeneration, nutrient intake, cellular and intestinal detoxification, digestive support and repair, balancing of PH, and utilizing the catalyst effects and specific and active compounds found in Noni.
